

Managing in a Change Environment

Maintain productivity through changing times

OVERVIEW

As organisations evolve to meet future demands, change leadership becomes an important skillset for managers to master. Build resilience in team members and implement a communications strategy to ensure your team remains positive and productive throughout uncertain and changing times.

The Impact of Change

- Assessing an individual's capacity to cope with change
- Identifying the positives and negatives of workplace change
- Discovering the impact of change on an individual through questioning techniques

Build Individual Resilience

- Identifying specific concerns around the change
- Developing an action plan to address concerns & alleviate anxiety and stress
- Using techniques that generate new ideas and solutions
- Letting go of what is out of your control

Managing the Change Environment

- Understanding the change process in your workplace
- Select appropriate strategies to manage through each phase of the change process
- Managing through uncertainty to maintain productivity and motivation

Change Communication

- Applying effective methods of communication
- Articulating the desired outcomes of your change communications
- Designing communications that lead the change process
- Reviewing communications to evaluate success to identify future considerations
